Efficacy

Level of Award

Bronze

Supporting evidence

A well-defined logic model, theory of change, strategic research plan, reviewed by independent researchers. Over a decade of peer-reviewed studies, meta-analyses and qualitative research. A robust literature base connects the platform's design features to established pedagogical and agroecological research.

Statement by EduEvidence's College of Reviewers

Access Agriculture has been awarded a Bronze certification due to a clearly defined logic model, theory of change that was verified by an independent third-party researchers and evidence of established design features. The proposed research plan to validate the learning progression model provides a strong foundation for more rigorous efficacy studies in the future.

EduEvidence considers impact in five areas: Efficacy, Effectiveness, Ethics, Equity and Environment. This certificate is valid until September 2027
